Thank you Margo. If I can carve out the time today, I will send a list of specific questions. Most will pertain to the location of the samples and the rationale for collecting more.

Sometime after 4 would be best for me.

Thanks again,
Tom

Hi Tom,

I can be available for a call later this afternoon. Eric Daly's emails are quite thorough in their explanation of EPA's planned assessment activities at your clients' properties. Did you have specific questions about the planned work? If so, please let me know ahead of time and I will aim to speak with the response team before our call.

Thanks,
Margo

Thanks very much for this information Margo.

Do you have time tomorrow (Tuesday) for a call to discuss the pending investigation work at the Robert St. properties (the owners of the 3 sites have engaged my firm) and at 9524/9540 Niagara Falls Blvd. (the owners have decided to engage my firm as well)? My day is pretty much open right now.

I just want to get a bit more detail so I can relay that to the property owners. (Eric copied me on the email regarding the Cemetery/Robert St. on Friday night and Len Pimm from the bowling alley at 9524 Niagara Falls Blvd. forwarded me Eric's email to him.)

Thanks again,
Tom

Subject: Documents for Robert Street Property Owners

Tom,

My apologies for the delay. Attached are files concerning 5374 Robert Street (designated Area 5), 5380 Robert Street (Area 6), and 5382 Robert Street (Area 7) in Lewiston, New York. The files include gamma surveys, radon sampling, and soil/slag analytical data. It is my understanding that EPA has only conducted an indoor assessment in Area 5. Eric Daly has been in communication with your clients to coordinate additional sampling activity. Please let me know if you or your clients have any questions.

Thank you,
Margo
